**Information and Defaults for Roman Blinds**

Maximum finished sizes are dependent on the width of the fabric.

Order **WIDTH** of blind first, **DROP** of blind second. Deductions will only be made if **NAM** (no allowances made) is written on the order.

**Railroading of fabrics is not recommended.** Railroaded blinds do not carry our normal warranty and are manufactured completely at the clients risk.

**If not stated FINISHED size will be assumed.**

**Roman blinds are NOT recommended as a RECESS fit.**

Over time the fabric drops. The bottom of the blind will rest on the window ledge. Reaching behind the blind to lift and lower the blind damages the edge of the blind. The action of pulling cords, raising and lowering blinds, freys the edge of the fabric. A Roman blind has a pronounced square finish, which will expose all the imperfections of the window. Light gaps around blind reduce the blockout effect and create a "halo" effect.

**One Touch**
